TuxGuitar

A MULTITRACK TABLATURE EDITOR AND PLAYER

JIŘÍ HEJDUK A4M35OSP

About TuxGuitar

- Open source project on SOURCEFORGE.net
- Desktop cross-platform multitrack tablature editor and player
- It can open GuitarPro, PowerTab and TablEdit files
- It helps with learning to play the guitar

With TuxGuitar, you will be able to compose music using the following features

- Tablature editor
- Multitrack display
- Autoscroll while playing
- Note duration management
- Various effects (bend, slide, vibrato, hammer-on/pull-off)
- Guitar tuner
- Repeat open and close
- Time signature management
- Tempo management
- And next...

My contribution

• Add the one new feature:

GUITAR TUNER PLAYS NOTES WHEN CLICKED

"The tuning feature is a neat addition, but I don't have a mic, so I just need to hear a drawn out note and tune to it..."

WHEN YOU CLICK ON THE TONE BUTTON, THE TONE WILL BE PLAYING ONLY ONCE AND WHEN YOU CHECK THE LOOP CHECKBOX, THE TONE WILL BE PLAYING IN INFINITE CYCLE

Thank you for your attention!
