## **My contribution**

• Add the one new feature:

#### GUITAR TUNER PLAYS NOTES WHEN CLICKED

"The tuning feature is a neat addition, but I don't have a mic, so I just need to hear a drawn out note and tune to it..."

				CHIN	ennis	trumen	r carre	0

WHEN YOU CLICK ON THE TONE BUTTON, THE TONE WILL BE PLAYING ONLY ONCE AND WHEN YOU CHECK THE LOOP CHECKBOX, THE TONE WILL BE PLAYING IN INFINITE CYCLE

## **My** solution

- Only for six standard tuning tones
- All samples of tones in cross-platform WAV format
- Control for playing is visible only when you use standard tuning
- Tone can be played only once or in loop
- Result is **patch** with all changes

Tuner ----- E5 ---------- B4 ----------- G4 ----------- D4 ---------- A3 ---------- E3 -----Tone player Mute Loop -1.0 Hz C# D D# С G Close Nastravení

Instrument tune

OTHER TUNING

#### STANDARD TUNING - CONTROL IS VISIBLE

## Demonstration

## Thank you for your attention!
